

# Above Grade Walls and Glazing Assemblies

**Date:** Friday, June 21

**Time:**

7:30 am: Breakfast

8:00am: Seminar

Noon: Lunch

5:00pm: Seminar ends

**Venue:**

Sandman Signature Hotel (Great Room)

2990 Replace Dr, Prince George, BC V2N 0B2

**Cost:**

CHBA Members: \$100+GST

Non Members: \$175+GST

- The CPDs are now approved for 8 CPDs by BC Housing

**Description:**

This hands-on workshop provides the attendees with a holistic perspective of the overall satisfactory performance of above grade wood-framed walls and glazing assemblies.

Supported by mobile wall and glazing assemblies, the workshop will showcase various methods of improving thermal performance, air tightness, moisture management, thermal comfort, long-term durability, accessibility, and adaptability to future repair and renovation. In addition, effective building envelope detailing at window to wall interface and wall penetrations will be presented.

The workshop covers a wide range of solutions ranging from those that meet the minimum Building Code requirements, to those that offer superior performance well beyond the Building Code. With the focus on delivering hands-on and interactive learning, this workshop will prepare the industry for the adoption of the BC Energy Step Code.

## **Workshop Format**

A highly interactive and collaborative format will be implemented in this hands-on workshop with the goal to make the session as rewarding as possible. Various brainstorming sessions and group works will be incorporated, with the goal to create vibrant and energetic sessions in the support of the learning experience of the attendees. The workshop will be supported by ten mobile wall assemblies featuring interiorly insulated, split insulated, and exterior insulated walls, along with double-glazed and triple-glazed windows, and wall penetrations. In addition, an intuitive and easy to follow PowerPoint presentation will be developed, showcasing various interesting case studies, photographs, and a wide range of 3D drawings specifically tailored for this workshop.
