& LEARN**

Free Zoom Webinar
BC Housing 1 pre-approved CPD is pending

Wednesday January 26, 2022
Noon-1pm

Presenting:  **BCCSA** BC Construction
Safety Alliance
Making Safety Simpler

Emergency Preparedness - Have you completed your assessment, practiced your drills, and completed the plan?

Managing Hazardous Materials in the Workplace - Have you identified the potential hazardous materials in the workplace including air quality? Hazards in construction include working in confined spaces, and carbon monoxide (CO) gas is the most common cause of occupational gas poisoning leading to death. Are you talking about near-miss incidents or close calls as an industry and value these discussions?
