

CANADIAN  
HOME BUILDERS' ASSOCIATION  
**NORTHERN BC**

**Members!** Do you have a new/tried-and-true technology, service, product, program or message which will benefit builders, renovators and businesses involved in the residential construction industry? *Lunch and Learn* sessions are designed to be impactful, enjoyable and brief, to maximize time and limit the impact on resources. This event is targeted as an opportunity for supplier/professional/service members to share solutions. Perhaps you need a bit more time, and prefer to host this type of event at your business location? Ask about hosting a 'Building After Hours' event!

**Format:** *Lunch and Learn* sessions are available to reserve the second Thursday of each month, and each talk/session is limited to 60 minutes. Bring your lunch with you and the coffee will be on!

**Presenters:** a minimum of one-month notice is required and we will apply to BC Housing to have your session pre-approved for continued professional development credits as mandated by BC Housing (CPDs), to further assist member builders.

Sessions will be hosted in the CHBA Boardroom and will be available live-stream for members who work and reside outside of Prince George, to participate.

**Cost:** there is no charge to the presenter. Members are free to attend.

Future Members will be charged \$20.

Money is collected at the door. No pre-registration is required and drop-ins are welcomed.
